PSNA COLLEGE OF
ENGINEERING AND
TECHNOLOGY

TEAM LEADER:

JEEVITHA S

TEAM MEMBER:

ARUN KUMAR S

PROBLEM STATEMENT:

Information is everywhere, but
discovery is fragmented.

- ✓ Information is scattered across multiple platforms.
- ✓ Users switch between different apps and websites.
- ✓ Searching, filtering and comparing takes time.
- ✓ Relevant opportunities and products are easy to miss.
- ✓ Local services require separate searches.

PROPOSED SOLUTION:

SOLUTION →

Findora.AI — One Place for Discovery

- 🔍 Centralized search for multiple categories
- 💼 Internships, jobs, hackathons & competitions
- 🛍️ Products, mobiles, electronics & fashion
- 🎓 Courses & scholarships
- 📰 News & daily needs
- 📍 Nearby hospitals, pharmacies, fuel stations & more
- 🔗 Direct links to original sources
- 🔍 Search, filters and sorting for easier discovery

Discover → Compare → Verify → Act

TARGET USERS:

Everyday Explorers

News

Products

Opportunities

Courses

Daily needs

Smart Shoppers

Mobiles

Electronics

Fashion

Beauty

Daily-use products

Local Users
Hospitals

Pharmacies

Fuel stations

ATMs

Emergency services

TARGET USERS

Students & Builders
Internships

Jobs

Hackathons

Competitions

Scholarships

Courses

Technical Approach :

 **React** — Responsive web application

 **Tailwind CSS** — Modern UI design

 **Reusable Components** — Modular architecture

 **Search & Filters** — Category-based discovery

 **Multi-Source Listings** — Source-aware results

<https://findoraai-pfxflufr.manus.space>

 **Geolocation** — Nearby service discovery

 **OpenStreetMap + Overpass API** — Local places

Example Sources
Internships: LinkedIn, Internshala, Wellfound

Hackathons: Devpost, HackerEarth, Unstop

Shopping: Amazon, Flipkart, Meesho, Shopsy

Modular architecture → Easy to expand

MARKET & BUSINESS POTENTIAL:

-  Career & internships
-  Hackathons & competitions
-  Courses & scholarships
-  Product discovery
-  News & information
-  Local services

Vision

From Unified Discovery → Intelligent Discovery

If We Had More Time:

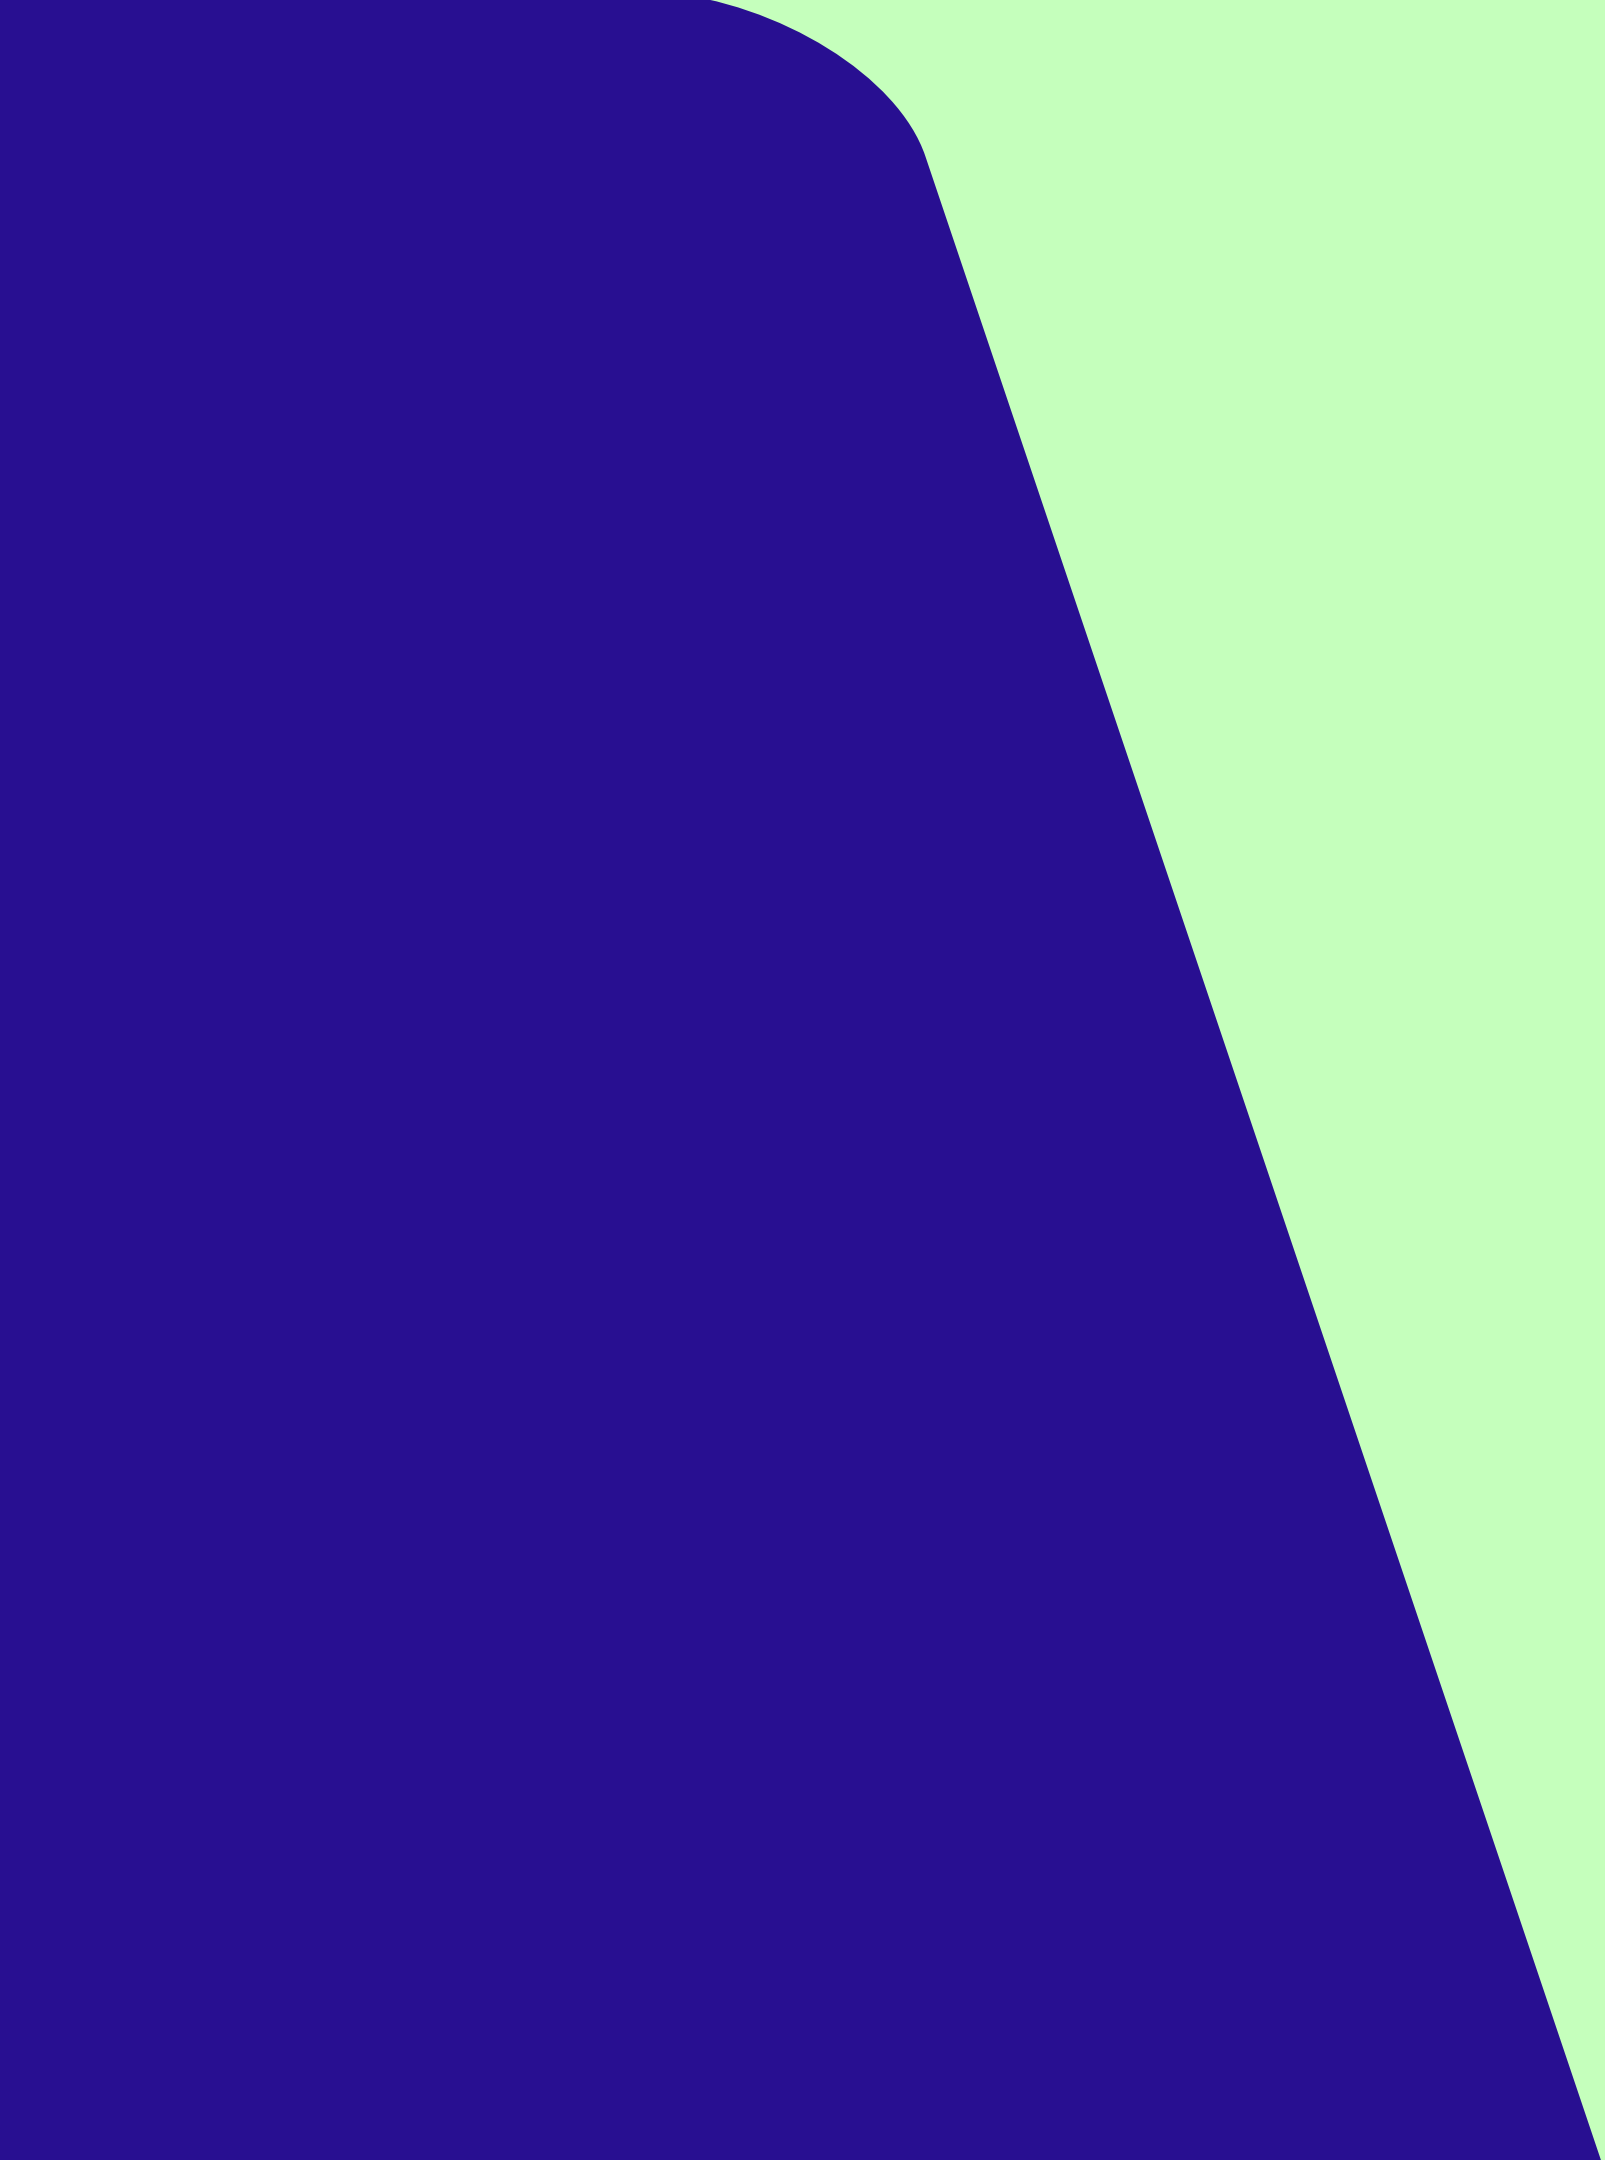

- 🚀 What We Would Build Next
 - 🤖 AI Assistant — Natural-language discovery
 - 🎯 Personalization — User-specific recommendations
 - 🔍 Smart Search — Understand intent, not just keywords
 - ⚖️ Smart Comparison — Compare products & opportunities
 - 🔔 Smart Alerts — Notify users about relevant updates
 - 📍 Better Local Intelligence — Distance, directions & availability
 - 🤝 Collaborative Boards — Share and organize discoveries
 - 🗣️ Voice Search — Faster hands-free discovery
 - 📱 Mobile Experience — Progressive web/mobile app

Vision

Today: Discovery Platform

Tomorrow: AI-Powered Discovery
Companion

**THANK
YOU!**
